FOREIGNERS ON WAY TO TIEN TSIN UNDER AN ESCORT

Peking Prisoners Supplied With Food and Protected by Government.

WU HEARS THE NEWS

McKinley's Answer to the Chinese Appeal For Aid is Made Public.

CONDITIONS MUST BE OBEYED

Washington, July 24—[Special Telegram]—Minister Wu received a cable gram from Sheng, director of telegraphs at Shanghai, this morning, that the foreign ministers at Peking are on their way to Tien Tsin under escort. Sheng further states that the ministers are being supplied with food and protected by the Chinese government.

The official correspondence between the Emperor of China and President McKinley was given out this morning, the gist of which has already been published. Replying to the request about the concert of the powers, McKinley says an amicable settlement is easy after an assurance that the ministers are alive, danger to lives and property removed and communication restored.

Heard from MacDonald July 4.

New York, July 24.—[Special Telegram]—The New York agency of a Hong Kong and Shanghai banking corporation announced today that its home office in London had received word from Sir Claude MacDonald, the British minister at Peking, dated July 4.

Big Battle Imminent.

London, July 24.—[Special Cablegram.]—Dispatches from Shanghai say that a big battle between the Russians and Chinese is imminent near New Chwang, where three thousand Russians are hurrying to the relief of comrades hemmed in.

Hear from Minister MacDonald.

London, July 24.—[Special Cablegram.]—The foreign office this evening received a telegram from the British consul at Tien Tsin, dated July 21, which stated that he had received a letter from the British minister, MacDonald, at Peking, today, dated July 4, appealing for relief. MacDonald wrote that they had enough provisions for a fortnight, but the garrison would not be able to hold out for many days. Forty-four deaths had occurred among the foreigners and double that number were wounded.

GRANT AND BARRY GO TO CHINA

Will Assist Chaffee In the Campaign In the Far East.

Washington, July 24—Brigadier General Frederick D. Grant U. S. V., and Brigadier General Thomas H. Barry today were assigned to duty with the United States military division in China.

Their assignment, together with that of Brigadier General James H. Wilson, U. S. V., already announced, will give Major General A. R. Chaffee, commander in chief, three general officers of recognized ability, to assist him in the management of military operations in China.

General Grant is now on duty with the troops in the Philippines, being stationed near Manila. General Barry is a passenger on the transport Summer, which left San Fransico, July 17, for Nagasaki.

The orders under which he sailed required him to report to General Mac Arthur at Manila for duty as his chief of staff. It is now proposed, however, to change his orders so as to assign him, temporarily at least, to duty with troops in China. He undoubtedly will receive orders to that effect upon his arrival at Nagasaki and will continue with the troops on that vessel to Taku, China.

RUSHING TROOPS TO CHINA.

Transport Hancock Will Make a Special Trip to Taku.

Washington, D. C., July 24.—The war department is considering the advisability of sending the Hancock, which sails from San Francisco July 28, with four batteries of artillery and 500 marines, direct to Taku, insted of Nagasaki. These troops were to have gone on the Meade, which sails Aug. 1, but it has been decided, owing to the urgent necessity of getting re-enforcements to China, to have the Hancock make a special trip. She will carry stores and provisions only for the troops in China. The Meade, on the contrary, will take out one battery of the 15th infantry, one squadron of the third cavalry and one company of engineers from West Point, in all 1,171 men and sixty officers. The Garonne, carrying two squadrons of the 1st cavalry and 100 recruits, thirty-five officers and 950 men, will sail from Seattle the same day for Nagasaki. The place of the Hancock, which was originally scheduled to sail Aug. 16, will be taken up by the Warren if she arrives at San Francisco in time. She will take out two squadrons of the 9th cavalry and recruits, in all forty-two officers and 1,243 men.

REPULSE THE CHINESE.

British Troops Defeat the Mongolians in a Stubborn Encounter.

St. Petersburg, July 24.—Two encounters are reported to have taken place between British and Chinese forces near Wei-Hai-Wei. The latter, it is reported, were repulsed after a stubborn encounter. No dates are given. M. Krutizki, engineer of the Eastern Chinese railway, telegraphing from Algatchi, in the trans-Baikal territory, under date of Friday, July 20, reports the occupation of Challar by Chinese troops. The Russians, according to this dispatch, continued to concentrate at Charbin. The situation in Manchuria is reported as far more serious than had been supposed. The Russian railway staff at Challar is surrounded and in desperate straits. Advices sent to the Times at London from St. Petersburg declares that Gen. Kouropakin, the Russian minister of war, will probably become commander-in-chief of the Russian forces in China, and will presumably take command of all the allied troops.

CONGER TO BE DELIVERED.

China Promises to Give Him Safe Conduct.

Washington, July 24.—Minister Wu places such confidence in the genuineness of Mr. Conger's dispatch and such faith that the Chinese government is protecting the foreign ministers in Pekin that he has agreed to deliver Minister Conger into the hands of Admiral Remey at Taku, that he may in his own person speak for the integrity of the imperial government and tell the world the truth regarding the situation in Pekin. Secretary Hay believes implicitly in the genuineness of the message received on Friday and was gratified when Minister Wu offered to produce the American minister. It is presumed Minister Wu will enlist the services of the governor of Shan Tung and Prince Ching.

The state department has received a number of dispatches from foreign governments relative to the Conger dispatches and also from our officials in China, including Consul-General Goodnow. Without exception they discredit the accuracy of the dispatch and advance various theories to show its lack of genuineness. The entire burden of the answers indicate a disposition not to move the relief expedition on the evidence furnished by the Conger dispatch. Notwithstanding these messages, Secretary Hay personally continues to credit the Conger dispatch and believes that our minister to China will be delivered at Pekin according to agreement.

LI CAN'T REACH PEKIN.

Minister Wu Says He Is Bound for Viceroyal City, Tien Tsin.

Washington, July 24.—Minister Wu states that he does not believe Li Hung Chang will go to Pekin or that he could go there if he wished to.

"Under ordinary circumstances," said the minister, "Li Hung Chang would go to Pekin to pay his respects just as any American might come to Washington to pay his respects to the president after he had been appointed to a high office.

"But Pekin is not the place of residence of the viceroy of the province of Chihli. The viceroyal city and capital of the province is Tien Tsin. That was where Li Hung Chang lived before; it is where the viceroys all have lived, and, in my opinion, that is the objective point of the viceroy."

IMPERIAL EDICT MADE PUBLIC.

Issued July 17 and Orders Foreigners Protected.

Washington, July 24.—The state department makes public the following text of an edict delivered today by Minister Wu to Secretary Hay. This is the edict referred to by United States Consul Fowler at Chefu, in his message received here yesterday:

"An Imperial Edict Issued on the 1st Day of the Sixth Moon (July 17).—Transmitted by the Viceroy Liu Knu Yih on the 20th of July, and received by Minister Wu on the 21st day of July at 7 o'clock.

"The present conflict between China and the foreign powers had its origin in the long-standing antagonism between the people and Christian missions. The subsequent fall of the Taku forts precipitated the meeting of force with force. The imperial government, having due regard to the importance of international intercourse, still refused to go so far as to intercept the existing relations.

"We have already repeatedly issued decrees providing for the protection of the foreign legations and also commanded the provincial authorities to protect missionaries. Inasmuch as there is still no cessation in the employment of force, foreign merchants and subjects residing in China, who form a numerous body in the country, should be protected without distinction.

"We hereby command all the Tartar generals, governors-general, and gov-

MR. STEBBINS HAS ALSO WITHDRAWN

LaFollette Will Undoubtedly be Nominated by Acclamation.

CLEAR FIELD FOR BOB

End of a Most Remarkable Contest for Gubernatorial Nomination.

PARTY UNITY IS ASSURED

Milwaukee, Wis., July 24—Senator DeWayne B. Stebbins of Algoma, has withdrawn from the contest for the republican nomination for governor. Yesterday he made the following announcement for publication:

Mr. Stebbins' Announcement.

"Believing that a majority of the republicans of the state desire the nomination of the Hon. R. M. La Follette for governor, and desiring to release my friends who have stood by me so loyally from further obligations, I have decided not to be a candidate for the nomination for the office of governor, at the republican state convention to be held August 8 next.

"I desire to express my high appreciation of the fealty of my friends and to thank them for their support.

"In making this announcement I may add that leaving the field as I entered it, without malice toward any other candidate, I shall loyally support the nominee of the republican state convention.

La Follette by Acclamation Now.

Mr. Stebbins' withdrawal will come as a surprise to republicans generally. It comes as the last act in one of the most remarkable ante-convention contests ever witnessed in the state. It means that Mr. La Follette will be nominated by acclamation.

Even that is now assured, although only about half the delegates to the convention are yet elected. There is not a candidate left in the field against him, and the republican state convention in this city on August 8, which will nominate him for govenor and renominate the rest of the state ticket will be simply a ratification meeting by the united republican hosts of Wiscansin.

Five Have Withdrawn.

First Senator A. M. ("Long") Jones of Waukesha left the field. He had failed to carry either of the district conventions in his own county and he gracefully retired after having made one of the livliest campaigns ever witnessed in Waukesha. If he had carried that county plans had been made to put up a sharp fight for him in Milwaukee.

Then Mr. Bradford the leading candidate for many months, and looked upon by many as the probable nominee, was the next to withdraw. Then soon followed the withdrawal of Senator Whitehead, who had made many friends by his excellent record in the legislature and who, had he continued in the race, would have had considerable support in the southern part of the state.

Then Gen. Earl M. Rogers of Viroqua announced his withdrawal, and now comes the retirement of Senator Stebbins, who, if he had remained in the field, would doubtless have received more than 100 votes on the first ballot in the convention.

Proved a Surprise to Many.

The outcome has proved a surprise to many. Even LaFollette's friends while never from the first in any doubt as to his nomination, did not foresee the sweeping character of his victory. They did not expect a unanimous nomination, they could hardly have expected that the battle would be won when only half the delegates were elected—but that is what has now happened.

Pleases LaFollette Men.

Madison, Wis., July 23—Though it has been expected for some time, the withdrawal of Senator DeWayne Stebbins from the contest for the gubernatorial nomination was received here with much pleasure by the LaFollette men last evening.

DEADHEADS HELD UP.

Eight Men in a Box Car Robbed by Three.

Jefferson, Iowa, July 24.—Eight men who were deadheading in a box car were held up two miles east of here by three robbers who relieved them of all the cash and valuables they had. One of the victims, J. C. Malsby of Gidden, a man of good repute, was shot in the breast and may die. The eleven men were in the car together when the train left. It was dark, but conversation was kept up. When two miles east of here, without warning, a light was struck and a newspaper lighted. Three men, wearing masks, drew revelvers and ordered the others to throw up their hands. The command was obeyed, but Malsby's hands did not go high enough and one of the robbers fired, the bullet striking Malsby in the breast. The latter had $30 in money about him, and this, with such funds and valuables as the other men had, was taken. At Grand Junction the robbers fled.

AID FOR CHINA FROM M'KINLEY

Condition is That Conger and Others are First Rescued.

NO DIVISION OF EMPIRE

Response to Celestial Appeal Given to Wu to Transmit to Orient.

ENGLAND TO JOIN AMERICA

Washington, July 24—Within a few days the veil of mystery that has so long hung over the Imperial City of Peking and the fate of a thousand Americans and Europeans entrapped there is likely to be lifted.

There are good reasons for hoping that as a result of the efforts of Secretary Hay, Minister Conger and the other members of the foreign colony will soon be on the road to the sea coast under an escort of loyal Chinese troops.

On Their Way to Tien Tsin

Indeed, a cablegram from London brings the cheering intelligence that the English counsellor and the secretary of the Chinese legation there made the important statement that the legationers are safe and already on their way, under guard to Tien Tsin. The American government has no official confirmation of the truth of this statement, but Secretary Hay would not be surprised to learn of its accuracy.

Uncle Sam Takes the Lead

The United States government has taken the lead in an endeavor to bring about this happy result. During the past three days Secretary Hay, aided by Minister Wu Ting Fang, has transmitted to the Chinese government and to every influential Chinese official who could be reached an appeal to save the legationere and convince the world of China's good faith by delivering the ministers and their entourage aboard ships of their respective nations at Taku or some other convenient seaport.

McKinley's Reply to China

Probably the most impressive appeal of this sort was President McKinley's reply to the request of Emperor Kwang Su for the meditation of the United States between China and the powers. The president's reply has been prepared, and probably by this time is well on its way to Peking. It is understood that an official statement concerning it is likely to be made public by the State department tomorrow or the next day.

Has Only Friendly Feelings.

In his reply to the emperor President McKinley says the government of the United States entertains none but the friendliest feelings toward the people and the government of China, and that the United States will in the future, as it has done in the past, use all its influence with the powers to prevent the dismemberment of China. The emperor is also assured that the United States, far from itself making war upon China, will exert itself to the utmost to prevent such war being made by the European nations.

One Point Made Plain

At the same time it is plainly pointed out to the Chinese government either in the president's direct reply or in a diplomatic dispatch of simultaneous date, that as long as the ambassadors of the nations at Peking are unable to communicate with their governments, and their personal safety and that of their families and suites is the cause of anxiety throughout the world, it must be expected that the powers will prepare to send military forces to the Chinese capital to rescue their citizens.

President McKinley suggests to the emperor, either in his formal reply or in an accompanying note from Secretary Hay to the tsung-li-yamen, or Chinese foreign offices, that the best step which China can take toward securing peace with the powers would be to deliver Minister Conger and other diplomats aboard ships of their respective governments at Taku or some other convenient port.

England May Support U. S.

Great Britain has further shown some inclination to support the policy of the United States—a definite and practical policy of trying to rouse the government to a sane and humane attitude by giving it some pledges against the international spoliation which China fears.

As for the other governments, they seemingly prefer to believe that their ministers are dead because that belief gives them an opportunity to go ahead with their preparations to secure a "compensation" and "reparation" at the point of the bayonet. The German government is one of the most implacable of the powers, most insistent upon a policy of armed intervention, of meting out dire punishment through blood and iron. But Germany's anger is excusable, because Germany knows her minister was foully murdered in the streets of Peking.

Three Killed at a Crossing

Mattoon, Ill., July 24—[Special Telegram]—Wm. Bosley and Thomas Bartles were killed and Mrs. Walter badly injured on an Illinois Central crossing by a cab being run down by a freight this morning. The woman was a cab passenger.

VICTIMS OF STRANGE DISEASE

Residents of Greenwood, Ill., Terrorized by Mysterious Deaths

Pana, Ill., July 24—A strange disease has appeared in Greenwood, this county, and three deaths have occurred today. Sunday Samuel Allen died from something resembling cholera morbus. Today Mrs. John Glover and Mrs. West Bauer both died suddenly in the same manner as did Mr. Allen. The town is greatly excited, and fears an epidemic. Physicians have thus far failed to relieve those attacked. Two other victims are reported from that isolated village.

HAS $427,498,482 IN GOLD.

Government Holdings Are Now at the Highest Point in Its History.

Washington, July 24.—The government's holdings of gold today reached the highest point in its history and amounted to $427,498,482, including the lawful reserve of $150,000,000. The next highest amount was $427.238,600, which was in the government vaults on May 2, 1900.

ST. PAUL TRAIN RUNS INTO A LANDSLIDE

Engineer Hathaway and Fireman Thomas Were Instantly Killed—Others Injured Near LaCrosse.

LaCrosse, Wis., July 24—[Special Telegram]—The Chicago & St. Paul passenger train No. 2 was wrecked about 5 o'clock this morning at Kings Coolie by running into a landslide at that place.

Engineer Hathaway and Fireman Thomas were instantly killed and some passengers in the forward coaches were injured, some seriously.

The track runs between high bluffs and the Mississippi river between St. Paul and La Crosse and the heavy rains of yesterday loosened a vast amount of earth on the St. Paul Bluffs which gave way shortly before the train came along.

DR. M'DONALD HELD ON A MINOR CHARGE

Child Found Dead In a Satchel Was Still Alive When He Was In Janesville.

Milwaukee, July 24—The investigation into the death of the child whose body was found in the Spiegel drug store last Thursday has been ended, and the most severe penalty that the authorities can inflict upon Dr. Charles D. McDonald, who admits having left the body in the store, will be $100 fine. Although the district attorney's opinion coincides with that of the police, who hold that the child did not die a natural death, the only law that can be made the basis of a complaint is one which provides for the punishment of those who conceal a death or who remove a body from a building without a permit.

When Detective McManus returned from Mineral Point yesterday, after investigating the Janesville and Mineral Point ends of the case, he reported that at Janesville a druggist refused to fill a prescription written by McDonald for the child, on the ground that it contained poison. That the child was alive when at Janesville was shown when persons were found who had heard it cry, though none saw it.

The inquest was held at the morgue yesterday afternoon, and the jury returned the verdict of death is some unknown manner, recommending in addition that McDonald be held, pending a complete investigation into the case.

Dr. McDonald said he had been asked to kill the child by administering chloroform, but had refused and was planning to put it in a Milwaukee asylum, when it died of pneumonia. He said that the grandparents of the child told him that the mother was the victim of an assault by an Italian. He had failed to hear from the grandparents of the child after its death, and so had left the body in the store. The other witnesses told of the other developments in the case, such as the finding of the body, and the events at the Clipper house where the child is supposed to have died.

The attempt to prove that the child died an unnatural death is now at an end. The district attorney's office will now make a complaint, it is announced, on the charge of concealment of a body, and until the complaint is prepared, Dr. McDonald and his wife will be held by the police.

General Election in October

London, July 24—[Special Cablegram]—A tip is passed in parliamentary circles today that the cabinet has nearly decided to order a general election in October. The alleged reason being the pending army scandal concerning which only a few rumors reached England.

Special Train to Madison Via C. M. & St. P. R'y.

On Thursday July 26, the C. M. & St. P. R'y will run a special train to Madison and return, leaving Janesville at 8 a. m., returning leaving Madison at 6 p. m. on account of Ringling Bros. circus. Rate $1.60 round trip.

REBELS CAPTURE CITY OF PANAMA

Defeat Government Forces Near Scity in Two Pitched Battles.

GEN. LOZADO HAS FLED

Government Leader Has Taken Refuge on the British Warship Leander.

ALL BUSINESS IS SUSPENDED

Panama, July 24—[Special Cablegram]—The revolutionists are practically in possession of Panama. They defeated the government forces near Scity in two pitched battles, and forced General Lozada to take refuge in the British warship Leander.

The rebels, fifteen hundred strong, arrived Friday at Corrozall, outside the city. A battle followed Saturday.

There is no interference with railroad traffic, but all business in Panama is suspended. General Emilio Herreraro is at the head of the revolutionists' forces.

TWO NEW ORLEANS POLICEMEN KILLED

Death Results from an Attempt to Arrest Two Crescent City Negro Burglars.

New Orleans, July 24—[Special Telegram]—Police Captain John T. Day and Policeman Peter J. Lamb were killed at 3 o'clock this morning by a negro named Robert Charles, in an alley adjoining a cottage tenanted by negroes. Several hours previous, Policemen Aucoin L. Mora and Cantrille attempted to arrest two burglars, Charles and Leonard Pierce, and a duel resulted. Mora and Charles were wounded, the latter escaping. Later it was learned that Charles was hiding in a cottage, and in attempting to effect the capture, the policeman named was killed, but Charles escaped again.

CHIEF GERONIMO IS STARK MAD

Nervous and Bloodthirsty Apache a Raving Maniac—Could Not Stand Captivity.

Vinita, I. T., July 24—After a long period of imprisonment which he endured more like a ferocious beast than like a human being, Geronimo, one of the most bloodthirsty Indians that ever figured in history, has gone stark mad. He is a prisoner at Fort Sill, O. T.

It cost the government a million dollars and hundreds of lives before he was safely behind iron bars. Deprived of his liberty as a punishment for his crimes, he could not stand the confinement. For fourteen years he has been a prisoner of war—the last ten at Fort Sill.

For almost half a century he led a band of bloodthirsty Apaches on the path of war. To the early settlers of the Southwest he was a terror. Because he successfully led his people in a bloody battle at the age of 18 he was crowned a war chief. In 1882 he and Victoria with 600 Apaches, were encountered by Mexican soldiers. Victorio was captured and beheaded and Geronimo became a famous war chief.

In March, 1886, after four years of constant chase, General Miles and Major General Lawton cornered Geronimo in the Four Peaks basin, near Prescott, Arizona.

After months of starvation, and after all hope of cutting their way through the cordon of troops surrounding them had gone, the Indians raised the white flag and surrendered.

They were sent to the military post at Mount Vernon, Ala., but the climate there did not agree with them, many dying with consumption.

About ten years ago Geronimo and his surviving braves were removed by the government to Fort Sill.

Sheepmen "Smoke Up" a Town.

Grand Encampment, Wyo., July 24.—The new mining town of Copperton, twenty miles west of this place, was "smoked up" by a band of sheep men. It was a plain warning to miners and prospectors to quit the western slope of the continental divide, and there is no doubt at Copperton about the determination of the sheep men to hold uninterrupted possession of their ranges. Every saloon in the town was fairly riddled with bullets, and the miners were roughly dealt with, although no one was seriously injured.

THE meeting of the common council was adjourned last night until Monday, July 30, at 8 o'clock. A quorum not being present the mayor adjourned the meeting until that time.

THE NEWS FROM COUNTY TOWNS

THE GAZETTE AGENCY
W. W. CLARKE, Manager,
Milton, Wis., July 24, 1900.

On Monday evening, July 23, Martin E. Clarke and Josephine Coon were united in marriage at the residence of Mr. and Mrs. B. H. Wells. President W. C. Whitford performed the ceremony and about twenty guests were present, only a few intimate friends aside from relatives, being in attendance. Mr. and Mrs. Clarke have a large circle of friends here who unite in offering hearty congratulations and in wishing them a prosperous and happy future. They will make their home on the Clarke farm east of the village.

There was a large number of spectators, ladies predominating, in the Park on Monday to see the second game of ball between the "Fats and Leans." Capt. Crumb was unable to play owing to injuries received in the previous game and Capt. Orcutt retired after a few innings. Frank Story, of the Leans, went lame and had to take a vacation. The new blood infused into the contest included Geo. Davy and H. G. Maxson on the adipose side and J. B. Borden and J. R. Howard for the thins. In the ninth inning, with only one man out, the beefy ones supposed they had won the game and quit, but the score showed a tie and it was accordingly decided not to play it out. Batteries: Fats, Marquart, Darry and Nickerman. Leans: Howard and Whitford. Umpire, W. P. Clarke.

Milton C. Whitford left today for the west, in the interest of the Janesville Barb Wire Co.

Miss M. C. Spaulding is at Lake Monona.

Miss Polly Rice has returned from her visit at Welton, Ia.

Mrs. L. A. Platts is visiting relatives at Richmond, Ill.

Mesdames Blount and Clarke spent Sunday with Madison friends.

Mr. Torrey of Minneapolis, visited his uncle, C. W. Cornwall, last week.

F. C. Dunn and family will go to Delavan lake the first of next month for an outing.

Miss Bertha Young of Appleton, is being entertained at O. W. Spaulding's.

This locality is being favored with more wetness. This is undesirable at this season of the year. Farmers are unable to work the ground or harvest grain between showers.

Miss Annie Carpenter who has been teaching at Wausau for the past six years, is the guest of Rev. W. T. Millar's family and other Milton friends.

Mrs. F. C. Wells has returned from her visit with Minnesota relatives.

Mrs. L. E. Barnhart is at Albion.

Miss Lettie Reynolds and her mother, who has been spending a year or more in Rhode Island, returned to their home in this village Friday.

Floyd Coon, proprietor of the Milton Pen Co, has sold the business to Janesville parties.

Arthur Allen of Beloit, was in town Saturday.

Rev. A. L. McClelland preached at the Seventh-day Baptist church Saturday morning, the pastor being out of town.

Mrs. Bacon and daughter Ida of Janesville, were in town Friday and Saturday.

It was Mr. and Mrs. Griffin, not Nicholson, who visited their daughter, Mrs. Palmiter.

Dr. D. E. Brown returned to Chicago Monday.

Mrs. J. P. Bullis has been visiting relatives at Fort Atkinson.

Over a hundred persons went to Clear Lake, Iowa, on the excursion from this place and Milton Junction. An evidence that low rates will catch the public.

SOUTH CLINTON.

South Clinton, July 24—Miss Hattie Benedict spoke in Roscoe not long ago and Rev. Mr. Curtis spoke at the M. E. church at Clinton on Sunday afternoon.

The many friends of the Rev. Will Curtis will be glad to learn that his hand is doing well.

Mrs. Eliza Bellinger Franz and two children have been visiting at Mrs. Carrie Roth's.

Mr. and Mrs. E. C. Dresser attended the social at Turtle Center Thursday evening.

Jasper and Marion Dresser were among the Delavan Lake visitors last week.

The missionary rally at E. C. Benedict's was a very enjoyable affair. Some two hundred were in attendance. The program was in charge of Miss Hattie Benedict, fresh from Japan mission fields. Mrs. Gertrude Benedict-Curtis spoke on the results of their work there.

Mrs. T. T. Nelson came near meeting with a serious mishap at Natesta's corners on Thursday evening. Because of the intense darkness she was unable to keep the road and in endeavoring to recover it her horse fell breaking the lines.

CENTER.

Center, July 24—The social at P. H. Torpy's was postponed on account of the bad weather until Friday evening July 27. Among those who took advantage of the cheap rates to Clear Lake, Iowa, were Bessie Fisher, Clayton Fisher, John Torpy, Ray Crall, Maude Crall, Mildred Adee and George Pepper. Mrs. Wm. Crow was called to Davenport, Iowa, by the serious illness of her sister. Mrs. Wm. Silvertborn, who has been sick the past week, is improving. F. H. Fuller returned from Janesville Monday. It is reported that he contracted with a teacher on River street for District No. 2. Mr. and Mrs. Samuel Dean entertained about twenty friends and relatives on Saturday. It was their third wedding anniversary.

Miss Sarah Venable, who has been visiting relatives in Magnolia, returned to Janesville Sunday.

Smith Jameson and wife and Frank Green and wife started for Michigan today, where they will visit relatives. Mr. Jameson is taking orders for peaches, which he will bring back with him.

Elger & Cain received a supply of threshing coal Thursday, and are now ready to supply all demands.

Misses Nettie and Blanche Townsend entertained quite a number of their young friends last Wednesday evening.

The Misses Ida Harper and Corn Langdon spent part of last week in town, visiting Mrs Lizzie Cain.

Eld A. E. Bloom of Monticello, A. C. church Sunday morning and evening.

Eld. DeBeer filled his usual appointment in Janesville Sunday.

Frank Daun of Footville, attended church in Magnolia Sunday.

AFTON

Afton, July 24.—Two good sermons were listened to by those who attended services at the Baptist church last Sunday. Rev. Howland Hanson preached at 3 o'clock and used the accident which befell the excursionists at Lake Geneva last Tuesday as a basis for his remarks. In the evening Rev. Albert R. Newton of Tomica, Ill., occupied the pulpit and delivered a discourse with all his old time vigor and enthusiasm. It is not definitely known whether there will be preaching next Sunday or not, as Rev. Hanson will be away on his vacation and no substitute has yet been secured.

Quite a number of Afton people went to Lake Geneva on the Beloit excursion last Tuesday, and report a very enjoyable time. Four from here were on the boat pier when it collapsed, and they had the added experience of an involuntary bath, as one feature of the day's outing.

Misses Lois A. Waite and Jessie McCrea left last Monday for a bicycle trip to Harvard.

William Edwards and Louis Warner of Beloit, spent Sunday with F. R. Eldredge.

A. K. Van Antwerp, an old time Afton boy, who is now a resident of Colorado, attended services at the Baptist church here Sunday afternoon, and greeted old friends. He is visiting his mother at Beloit.

The members of Afton Camp No. 2102, M. W. A. will hold their annual picnic as usual this year, that much having been decided at the regular meeting to be held last Saturday evening. No date has been selected as yet, but all the preliminaries have been placed in the hands of a special committee, the members of which are U. G. Waite, William Brinkman and Peter Drafahl. The matter will be more fully discussed and arrangements perfected at the next regular meeting.

Professor and Mrs. A. G. Henry entertained a small party of friends last Monday evening. Those present were Misses Lois A. Waite, Jessie McCrea, Mattie E. Waite and Messrs. Edgar Nelson, Frank C. Miller and U. G. Waite.

Farmers in this vicinity will be pleased to know that after the long period of enforced rest the Afton mill is again in running order and ready for grinding. Mr. Hoskins has moved to Afton with his family and is getting the mill in shape to do a first class business.

Mr. I. F. Dunwiddie and son of Park Ridge, Ill., are guests of J. B. Humphrey.

Clarence Seales is home after a protracted stay with relatives at Roscoe, Ill.

NORTH JOHNSTOWN

North Johnstown, July 24—Dr. Louis Bennett's family of Beloit, spent Wednesday at James Bennett's. The two boys remained for a few days' visit at their grandfather's, George Bennett.

Mr. and Mrs. W. H. Newton visited friends at Sullivan from Thursday until Saturday.

Charles Dyer of Chicago, has been spending a week at the home of his aunt, Mrs. Merritt Baker.

The farm belonging to the estate of the late James Wheeler has been sold to J. M. Haag of Marshfield, who will take possession soon.

Mrs. Earl Newton and children of Koshkonong, visited the family of her sister, Mrs. Carl Newton from Saturday until Monday. Earl wheeled down and spent the day Sunday.

Charles Stoller of Janesville, was on our streets Monday.

Mrs. D. E. Cary and Mrs. Emma Kinney who have been spending several days with relatives here have gone to visit friends in Whitewater.

At the W. C. T. U. meeting Thursday it was decided to hold the meeting once in four weeks instead of two. The next meeting will be held with Miss Helen Cary, August 16.

Grandma Cary is improving a little.

Mrs. Anna Longfield has not been as well for a few days.

Vegetation of all kinds has made a rapid growth since the recent rains which were much needed.

Rev. David Johnson and daughter Iza, who formerly resided here, now of Phillipsburg, Kansas, attended church services here Sunday.

BONE OF LEFT ARM BROKEN

Accident to Ethel Walker While at Play Last Evening.

Ethel Walker, the eight year old daughter of Mrs. Nellie Walker, while at play with some other children at the home of her grandparents, Mr. and Mrs. Edward Connell, was in some way knocked down and her left arm seriously injured. Dr. Woods was called and found a bone of the left arm broken near the elbow and also that the left elbow joint was dislocated.

The little one was made as comfortable as possible and will be around again in a short time.

Union Returns Thanks.

Janesville, Wis., July 23, 1900. Gazette Printing Co—Gentlemen—At our last regular meeting of Typographical Union, 197, it was voted to extend our thanks to you for the use of the material that we used from your office in our display on the Fourth of July by which we made such a creditable showing. By order of Union 197. Yours respectfully, L. C. SHARPE, Recording Sec.

LASHED BY AN IRATE WOMAN.

Col. L. L. Laflin Is Horsewhipped by a Saloon-Keeper's Wife.

Ottumwa, Ia., July 24.—Col. L. L. Laflin of this city, ex-sergeant-at-arms of the Kansas City national democratic convention, was publicly horsewhipped in the streets by Mrs. Thomas Gallagher, the wife of a saloon-keeper, who says the colonel slandered her to her husband during an altercation between them over a personal difference. Laflin made an effort to get away, but was followed by the irate woman, who continued to rain blows upon his back. He finally managed to stay her hand and wrest the whip from her. Mrs. Gallagher was interviewed immediately after the occurrence, and said that she had come within an inch of killing her victim. She also said she made him apologize to her for the language he had used. The colonel denies that he slandered the woman, and says the whole difficulty originated over his buying his whisky at another saloon. The affair created a lot of excitement and was witnessed by a large number of citizens.

Damage Done by Drought.

Phoenix, Ariz., July 24.—Reports today resulting from an investigation of the damage by the recent drought state that the orange crop has not been damaged so seriously as at first reported and there will be three-fourths of a crop. The first picking will be marketed early in November.

MOSHER INDICTED BY A GRAND JURY

A FORMER JANESVILLE MAN MUST STAND TRIAL.

Discharged From the Force For Robbery and Will Now Face the Criminal Court—Report Was Unanimous and Prosecution Will be Thorough, Chief Kipley Says.

Policemen Patrick J. Sheehan and John Mosher of Chicago, have been discharged from the force, and will be tried for alleged robbery. It took the grand jury only three minutes yesterday morning to vote indictments against them. Later in the day the formal decision of the civil service commission was rendered. The commissioners were unanimous in thinking the policemen guilty of robbing Hugh McDougall and recommended that they be discharged.

Chief of Police Kipley acted on the finding at once, and issued a general order discharging both men. In addition to the charge of robbery, Chief Kipley adds those of neglect of duty and conduct unbecoming a policeman. The action of the chief was ratified by the police trial board.

"The decision of the commission satisfies me in every way," said Chief Kipley. "I think the men are guilty and there is no punishment which the commission could inflict upon them other than they did. Both men will be prosecuted to the full extent of the law."

Three witnesses were called before the grand jury and asked a few questions. When they had been dismissed the jurors decided that it was useless to hear further testimony and voted a true bill against Mosher and Sheehan on the charge of robbing H. McDougall of $155 at a recent picnic in Sharpshooters' Park. The indictment will be returned this morning and they will be placed on trial almost immediately.

Twenty witnesses, including Inspector Heidelmeier, Chief Kipley and other police officials have been subpœnaed. Sergeant Moore, who arrested the two men on the complaint of McDougall, Jeweler Robertson, who sold a gold watch charm to Sheehan; and Hugh McDougall, were the only witnesses called. McDougall positively identified the former policeman as the man who had robbed him.

A Moonlight Excursion.

The Y. P. S. of Trinity church gave a moonlight excursion to Crystal Springs last evening, which was largely attended. About 125 people made the trip on the steamer Columbia to the Springs. Ice cream and cake were served as refreshments and a social dance followed, which was greatly enjoyed by the young people. Smith's orchestra furnished the music. The party returned home near midnight, much pleased with their evening's pleasure.

HISTORY OF THE NINTH

Fine Record of the American Regiment In China.

MARYLANDERS ITS FIRST OFFICERS

Organized More Than One Hundred Years Ago, It Has Taken Part In Every American War Since—Distinguished For Service Against Hostile Indians.

The Ninth regiment of infantry which suffered many losses in the fighting at Tien-tsin, China, came into existence in January, 1799, under the act of July 16, 1798, which authorized the president to raise 12 additional regiments of infantry, with Josiah Carville Hall of Maryland as lieutenant colonel commandant. It was officered by other Marylanders and was recruited in that state, says the New York Times. The regiment was disbanded in June, 1800, and organized in March, 1812, with Simon Learned of Massachusetts as colonel. It was accredited to that state and figured in several actions in the war of 1812, among them those of Niagara Falls and Lundy's Lane.

Mustered out in 1815, the Ninth was again organized, with Trueman B. Ransom of Vermont as colonel in April, 1847. At Chapultepec the regiment lost heavily, and Colonel Ransom was among the killed. His successors were Colonel Jones M. Withers and Colonel Henry L. Webb. It was conspicuous for gallantry at Contreras, Churubusco, San Antonio and Molino del Rey. Again disbanded in August, 1848, the regiment did not figure in the roster of the army until its reorganization at Fort Monroe in March, 1855, with Lieutenant Colonel George Wright of the Fourth Infantry as colonel. In December of that year the Ninth went to the Pacific coast, part of the command doing duty at Fort Vancouver and the rest at Fort Steilacoom, Wash.

The regiment saw much service in the field against hostile Indians in 1856 and during the next two years was engaged in building posts and making roads. Company F was detailed in 1857 as an escort to the northern boundary commission and was on that duty for three years. Company E, in a reconnoissance north of Fort Walla Walla in May, 1858, took part in repelling an attack of hostiles and retired by a forced march at night without the loss of a man or a horse in spite of overwhelming odds. Other distinguished services were rendered by the regiment in Indian campaigns and in protecting Californians until June, 1869. In these 13 years the Ninth had garrisoned nearly every post in that territory from Sitka, Alaska, to Fort Mohave, Arizona. In July, 1865, Colonel Wright perished in the wreck of the steamer Brother Jonathan and was succeeded by John H. King.

For the next 17 years the Ninth did duty in the department of the Platte. The Twenty-seventh infantry was consolidated with it in July, 1869. Its duties embraced the care of the Yellowstone expedition escorting the Jenney exploring party and the Indian campaign which brought it under fire at Tongue river, Rosebud river, Slim Buttes and Goose creek in 1876. It figured in the Powder river expedition against the Sioux and in 1877 Companies B, D, H, I and K did guard duty at Chicago during the railroad riots.

Indian duty kept the command in active service until 1891, when the regiment, which in 1886 had been sent to the department of Arizona, was transferred to the department of the east. In 1882 Colonel King was retired. His immediate successor, Colonel James Van Voast, did not join, and he was succeeded by John S. Mason, who was retired in 1888, and was succeeded by Alfred L. Hough. In the department of Arizona the regiment garrisoned every post in Arizona and some in New Mexico. Colonel Hough retired in 1890 and was succeeded by Charles G. Bartlett. His successor, Jacob Ford Kent, took a division to Cuba.

The Ninth was at San Juan hill under Lieutenant Colonel E. P. Powers. In the engagement the regiment lost one officer and four men and had 27 wounded. Emerson H. Liscum became colonel of the Ninth April 25, 1899. The regiment arrived at Manila April 22 of that year and did garrison duty on the Dagupan railway between Calumpit and Tarlac, Capas, O'Donnell, Bamban, Babalacat, Murcia, Concepcion and Magalang. The Ninth received orders to embark for Taku on June 27.

Trains Delayed by Tarantulas.

Scorpions and tarantulas have made their appearance in such numbers at Iguala and other points on the Mexico, Cuernavaca and Pacific railroad as to interfere with the operation of that line and the transaction of other business, says the Cuernavaca (Mexico) correspondent of the Chicago Record. So many of the trainmen have been bitten by the poisonous insects that the running of trains is delayed. At Iguala a bounty has been offered by the municipal authorities for the killing of the pests, and hundreds of men and boys are employed in slaughtering them.

Lightning's Queer Freaks.

While the family of Samuel Masterson, a Cheyenne county farmer, was eating supper the other evening a bolt of lightning shattered a meat plate in the center of the table, says a Topeka dispatch to the New York World. Masterson and his wife were knocked senseless. While their son and daughter were administering restoratives another bolt ripped up the keyboard of a piano which the farmer had bought a few days before. Within five minutes a third bolt tore out a corner of the kitchen.

THE UNQUIET SEX.

Some of the Various Activities of Woman In This and Other Lands.

The newly elected president of the National Science club of Washington is Mrs. L. H. Grenewald. She is a weather expert and acts as sunshine and rain prophet for local papers in York, Pa. The club was formed at Washington nine years ago for the purpose of advancing the cause of science among women. There are over 300 women on the membership list.

Paris is wondering how long the $5,000,000 which the Count and Countess de Castellane received from the countess' brother will last. Recent reports are to the effect that the distinguished couple have invested in a pair of wardrobes at the exorbitant price of $28,000. The pieces are of the Louis Quinze type and are pronounced to be wonderful examples of their kind.

Mrs. Mary A. Wright of Idaho, who has recently come into prominence in a political way, is one of the first women in the United States to become a member of the national campaign committee of a political party. It is her dearest ambition to convince the women of the country that their prejudice against women in politics is a mistake.

Four young ladies who were dying of ennui for the lack of something to occupy their time during the summer months passed on the border of Moosehead lake hit on the novel amusement of building a house. They cut and split the logs and erected a comfortable cabin without male assistance. That these ladies pride themselves on their work is quite pardonable, for the log cabin is well made and complete in every detail.

One of the most conspicuous examples of the success of woman in business is Miss Caroline Van Brunt, secretary of the Orford Copper company. Miss Van Brunt is one of the directors of the company, owner of a considerable portion of the $250,000 capital stock and also one of the incorporators. She is still a young woman and is probably better acquainted with the sources of supply, production, consumption, tariffs and state of trade of copper and nickel than any other woman in the United States.

Miss Amalia Hofer, one of the editors of The Kindergarten, a magazine, and director of the Chicago Kindergarten Training school, who is now in Germany, will be a delegate to the congress of primary education at Paris and will take part in its programme.

Another actual Daughter of the Revolution has been added to the St. Louis chapter in the person of Mrs. Elizabeth S. McClellen of Springfield, Mo. Mrs. McClellen is 94 years old and on becoming a member of the organization was presented with a solid silver spoon by the older members of the chapter.

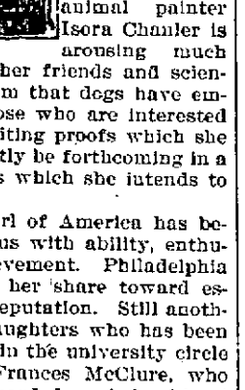
The celebrated animal painter Isora Chanler is arousing much interest among her friends and scientists by her claim that dogs have embryo souls. Those who are interested are eagerly awaiting proofs which she asserts will shortly be forthcoming in a series of articles which she intends to publish.

The college girl of America has become synonymous with ability, enthusiasm and achievement. Philadelphia has contributed her share toward establishing this reputation. Still another one of her daughters who has been winning honors in the university circle is Miss Mary Frances McClure, who has just been awarded a scholarship at Bryn Mawr college by Cornell university. Miss McClure received her A. B. at Ithaca with the class of 1900.

Miss Ella May Clemmons, the sister of Mrs. Howard Gould, is sincerely in earnest about her missionary work among the Chinese of San Francisco, which she has carried on all through the recent plague scare.

A young woman from Virginia known by the musical title of Jane Grey Syme is distinguishing herself in an unusual art. She tints plaster casts so beautifully that an expert can scarcely detect her work from marble.

In the Chicago Japanese colony there are 80 persons. Among these only two are women, the consul's wife and her niece, Miss Hasa Nagaro. Miss Nagaro has been a resident student in Chicago during the past seven years. She is a graduate trained nurse and is now completing a medical course at the College of Physicians and Surgeons. Miss Nagaro intends to return to her own country within a few years a fully equipped doctor and surgeon. She is a native of Koto, Japan.



A hen that lays seven eggs a day is one of the egg making machines which Mrs. MacNally of Kingston Hill, R. I., has discovered. The hen is a mixture of White Leghorn and Plymouth Rock and weighs 4½ pounds. The precious white biddy is now at the scientific experimental station at Kingston. If the state scientists find that the hen lives up to her reputation, they propose to find out how to make other hens do likewise. Meanwhile Mrs. MacNally is very anxious about her precious fowl.

THIS DAY IN HISTORY.

1783—Simon Bolivar, South American liberator, born in Caracas, Venezuela; died 1830. Bolivar descended from a noble Peruvian family. He studied in Europe and witnessed the closing scenes of the French revolution. Returning to America, he visited the United States, then joined the revolutionary movement in South America. Successively as general, dictator and president, in Venezuela, the United States of Colombia and Peru, he led the fight against Spain. The Bolivian code framed for Bolivia; a new state formed out of upper Peru, was adopted by Peru, and its author became president for life of that state. The sword of Bolivar liberated three states, and his genius organized them for a free existence.

1798—John Adams Dix, general and statesman, born in Boscawen, N. H.; died 1879.

1803—Alexandre Dumas, the novelist, born; died 1870.

1862—Martin Van Buren, ex-president, died at Kinderhook, N. Y.; born 1782.

1895—Rev. Edward Beecher, one of the famous seven brothers, died in Brooklyn; born 1803.

1897—General Lafayette McLaws, a noted Confederate officer and a veteran of the Mexican war, died in Savannah; born 1821.

1899—The Rev. Thomas J. Sawyer, noted Universalist writer and educator, died in Boston; born 1804.

The fact that Janesville needs a better police system is still in evidence, and there is plenty of evidence, too. Isn't it about time something was done? It should not be necessary to use a sledge hammer to drive a tack, but when it is, a complete job of driving always results.

So men are to wear shirt waists, are they? Well, all right, but when "Mr. Dooley" Dunne wanted to say something real mean to Richard Harding Davis a short time ago, he accused Davis of doing that very thing, and the world laughed immoderately.

The Rev. Mr. Jasper of Virginia, who declared "de sun do move," has a modern echo in the person of General J. Watts De Peyster of Tivoli, N. Y. This would appear to settle this question.

The statement that the Wallace show, which comes here next week, contemplated absorbing the Nonesuch Brothers' show is denied. The famous Nonesuch Brothers' show cannot be bought.

The W. C. T. U. has a big job on its hands when it tackles the absinthe drinkers. The man who drinks absinthe is a hard customer to handle.

Poor man! A slave to fashion! The Prince Albert coat is barred out, and the wearing of shirt waists ordered, all in one short week.

Milwaukee is jogging along in peace and quiet these days. There hasn't been an eruption in the Cream City for some weeks.

The Japanese navy has not lost a ship because of bad seamanship, in thirty years—a record to be proud of, surely.

The county convention to nominate county officers will be held on August 1 at the court house.

The United States and Japan, however, can go it alone in good shape if they have to.

ABOUT MR. WHITEHEAD

Kenosha News, [Rep.]—With the remainder of the First district the city and county of Kenosha stood to work and vote for the nomination of Senator Whitehead of Janesville, and the people of the county view with regret the fact that the senator has withdrawn from the fight. But this does not mean that the county will stand idly by and see the delegations of the district placed in the La Follette column, but on the other hand, they will be found active in the opposition, willing to support any man whose republicanism is unsullied by the marks of the political ring.

As to the candidate for governor who will be presented by Kenosha county, the county stands pledged to none save Whitehead. Stebbins would probably be an acceptable candidate, but the county would much rather see that grand old man of Wisconsin politics, Senator John C. Spooner, placed in nomination.

The feeling for Spooner and Stebbins is enthusiastic, but the feeling against the man from Madison is one of indignation and regret.

Twice the leaders of the party claim La Follette has been turned down by the republicans of the state, and for him to attempt to foist himself on the party as its candidate through the machinations of the most stupendous ring that has ever been perpetrated in Wisconsin politics, is more than they will stand for.

FOREIGNERS ON WAY TO TIEN TSIN

(Continued From Page 1.)

ernors of provinces to look after the foreign merchants and missionaries living in the open ports, prefectures, departments, and districts under their respective jurisdiction, and to afford them due protection in accordance with treaty stipulations without fail. Last month we heard, with profound astonishment and regret, of the killing of the chancellor of the Japanese legation, Mr. Akira, and the same fate befell the German minister shortly afterward.

"The violent removal of the German minister, whose residence at the capital was necessary to the transaction of business between the two countries, affected us very deeply.

"It is the duty of the authorities concerned to cause stringent orders for the speedy arrest and punishment of the murderers to be carried out.

"Since the commencement of the attack in Tientsin there are foreign subjects and missionaries who have, on account of local disturbances, suffered death or loss of property through no fault of their own. We hereby command the governor of Peking and the viceroy of Chih-Li to cause investigations to be made by their respective subordinates of all such claims except those arising directly from the said attack with a view to their ultimate settlement. Moreover, local outlaws and rebellious subjects have of late given themselves up to burning, killing, and plundering to the great disquietude of our loyal subjects. This is in utter defiance of law. We hereby command the said governor-general, governors, and commanders of our forces to investigate the situation and to take such measures for the punishment of the offenders and restoration of order as the necessities of the case demand. We hereby command this, our general edict, to be made known, for the information of all it may concern. Respect this."

A significant statement in the above edict is noted in that passage which directs an investigation of all claims "except those arising directly from the said attack (attack on Tientsin), with a view to their ultimate settlement." This appears to make plain, not only that the Chinese government will settle claims for actual losses, but that it has now formally decreed an exception of these claims arising directly from the attack on Tientsin. It seems to indicate that the Chinese government holds that the attack on Tientsin was unwarranted.

GLARE OF THE STAGE TO COST A FORTUNE

Chicago Man Will Cut Off His Daughter for Becoming an Actress.

Milwaukee, Wis., July 24—Fascination for the stage is said to have cost Mrs. Robert Curtis Brown a fortune. Her father it is said will disinherit her.

Jane Peyton is the stage name of Mrs. Brown, whose husband is a Milwaukee physician. She recently went on the stage and has been playing here with the Salisbury stock company. She left today for New York to commence rehearsals for her appearance with Otis Skinner in "Prince Otto" the play in which she made her debut in Chicago last spring.

Mrs. Brown is a daughter of George Van Norman, who formerly lived here, but who now resides in Chicago. He is said to have such a strong objection to the stage that he declares his daughter can share none of his riches.

Mrs. Brown today admitted that her father was much displeased, but said she hoped he would become reconciled. She has not heard from him, she says, since she became an actress, but owns that she has understood from other sources that he will disinherit her.

FACTS VERSUS LOGIC.

PRACTICAL WORKINGS OF THE PROTECTIVE SYSTEM.

It Broadens Markets, Stimulates Competition, Cheapens Prices and Increases Employment by Transplanting Industries to American Soil.

A prohibitive tariff makes a narrow market, a narrow market is one easily controlled by trusts, trusts destroy competition, make things dear and by centralizing methods throw thousands of men out of employment.—Kearny (N. J.) Record.

We quote the above as a specimen brick. Indeed it is more than that. It is a compendium of pretty nearly all the arguments advanced by many Democratic papers. How much truth there is in it can be very easily ascertained by bringing its statements into contact with recent industrial history.

By a "prohibitive" tariff we are willing to believe that the writer means a tariff high enough to make importation unprofitable as compared with home production. Such a tariff was put upon tin plates a very few years ago. It was not a prohibitive tariff, for a great deal of the merchandise was imported for some years. But assuming the definition to suit the question is whether the market—meaning the buying market, of course, as that is what the writer of the above means—was narrowed by putting up the duty on tin plates.

The contrary was the fact. Before that time the market, the source of supply, was in Wales. By making tin manufacture possible in this country the market was broadened. We still had the Welsh market if we cared to avail ourselves of it, and added to it was this rapidly developing American market. The effect of having such a broad market was soon apparent. The prices went down. American competition had a demoralizing influence on the staid Welsh custom of maintaining prices at a conservative and comfortable level. That end of the market had to adjust itself to this end and in doing so experienced considerable disaster. That tended, it is true, to "narrow" the market, but not enough to injure the buyer's opportunities, for the real market had been transferred for American buyers to American soil and soon assumed proportions great enough to provide for our wants.

Now about the trust part of it. Before the protective feature was put into the tariff on tin plates their production in Wales was controlled by a combination that fixed prices and dictated the policy of the business. We don't doubt that that combination was the result of previous and disastrous competition among many manufacturers, a course of business that was destined to ensue in this country and to occasion the adoption of the same remedy. As the development of the manufacture here approached or perhaps temporarily exceeded the limit of demand prices suffered. With the rebound in raw materials the necessity for some advance in tin prices became obvious, but concerted action seemed to be essential to the step. The enhanced prices made in consequence of such agreement did not precede but followed and at some distance the rising costs of materials, with a maximum figure considerably below the prices charged by the Welsh combination before the American tin industry was created. We need not go into an acute calculation of whether the prices should be lower or higher. Suffice it for a fair discussion of the tariff question involved to say that the levying of the protective tariff on tin plates brought about the establishing of the tin market in our own country, with prices now for several years lower than before, when the market was in a foreign country.

As to the further point of employment, it may be conceded that all industries in the country have their ebb and flow in that respect and that combinations do sometimes economize forces, though not always. But again we insist that the effect of the tariff has been to cause the transfer of a great industry to this country and to give a new employment to many thousands where such employment did not exist before. It is foolish to blame the tariff for the fact that the scale of employment shrinks at times. Rather let us approve a system that tends constantly to enlarge the opportunities for work and that has enabled a standard of wages to be maintained here for the imitation of the world.

We have thus instanced one industry because its whole history is so recent and emphatic as to be easily verified, and it will serve as a specimen of many that have taken a similar course, being transplanted to American soil by the influence of the "American system."

Exports to Portugal.

President McKinley has announced a commercial agreement entered into between the United States and Portugal. This enables us to export to Portugal, the Azores and Madeira islands at rates of duty as low as those accorded to any other country except Spain and Brazil the following American products: Flour of cereals except wheat, corn, wheat, lard, grease, mineral oils and their products, reaping, mowing and thrashing machines, machines for compressing hay and straw, steam plows and parts of such machinery, instruments, implements and tools for the arts, for factories, agriculture and gardening.

One Is Enough.

The Democrats of Milwaukee have nominated Peck's Bad Boy for congress. Representative Lentz was a sufficiency in that particular line.

Restored the Flag.

The last Democratic president hauled down the American flag at Hawaii. It was restored to its place over the Pacific by President McKinley.

FRED R. MOULTON RESIGNS HIS PLACE

OVERWORK AND CONSEQUENT ILL HEALTH FORCE MOVE.

Has Been With the C. & N. W. Company For Twenty-Seven Years and Made a Record to Be Proud Of—Will Rest Before Making Future Plans.

F. R. Moulton for the past eight years assistant superintendent of the Wisconsin Division of the Chicago & Northwestern railroad, has resigned.

Overwork and consequent poor health are the chief reasons for this move on the part of Mr. Moulton. The immense amount of work, long hours, no fixed time for meals, and many times going without eating anything but cold lunches for long periods, has undermined his naturally strong constitution, and forced him to apply to the company to be retired, or given a position where the work would be easier and the hours more regular.

Mr. Moulton entered the employ of the Northwestern twenty-seven years ago, and by faithful service and always looking out for the best interests of the company, was advanced from one position to another until the one lately held by him was reached.

Made Fine Record.

Mr. Moulton has made a record that any man might well feel proud of. During all these years of active service in all capacities he has never been reprimanded, or called to the superintendents office for failure to do his duty and obey orders. He never had a wreck while in charge of a train, and when his resignation was handed in to headquarters he had the feeling that he had performed the work assigned to him to the best of his abilities.

Mr. Moulton moved to Janesville in 1888 and took the Janesville, Chicago passenger run the train being familiarly known to the public as the "Accommodation." After running this train for two years he was promoted to the position of trainmaster of the Wisconsin division and after two years in that capacity was promoted to the position of Assistant Superintendent, which position he has held from that time till now.

In a Trying Position.

Very few people have any knowledge of the amount of country covered by a railroad superintendent. The Wisconsin division under Mr. Moulton's charge runs from Chicago to Green Bay through this city and a branch line running to Princeton, Wis. making 320 miles of road to look after with all its accessories, such as stations, yards, freight buildings and other things that go to make up a road.

Mr. Moulton had about 600 men under his supervision and had many warm friends among them. It is safe to say that 99 per cent of the men under his supervision will be sorry to learn that he has decided to give up his office of assistant superintendent.

Will Take a Rest.

Mr. Moulton has not decided what his future occupation will be. He has had several propositions from the company, but what he will do he has not yet decided. He leaves next week for a trip to Colorado, visiting Denver, Glenwood Manito Springs and several other resorts in search of health. When he returns he will know definitely what he will do. He has resided in Janesville for so many years that he is anxious to remain here permanently, if he can get a position that will make this his headquarters.

No appointment to fill the position vacated by Mr. Moulton has yet been made.

NELS NELSON PLEADS GUILTY

Judge Fifield Thereupon Sentenced Him to a Term of One Year At Waupun.

Nels Nelson, of Milton Junction, was brought before Judge Fifield of the municipal court this morning and withdrew his plea of not guilty and pleaded guilty to the charge of adultery. On the recommendation of the district attorney Judge Fifield sentenced Nelson to a term of one year in the state prison at Waupun.

COCHRANE GETS 24; FISHER 14 VOTES

REPUBLICANS MEET AT CAUCUS LAST NIGHT.

Fight For Sheriff Was the Chief Issue and in Some of the Wards the Vote Was Close—The Delegates Elected In All the Precincts—Results in Janesville Caucuses.

For Wallace Cochrane for sheriff............ 24
For Ira U. Fisher for sheriff.................. 14

The republican caucuses to elect delegates to the county convention on August 1 to nominate county officers were held last evening, and resulted in the election of twenty four Cochrane delegates and fourteen Fisher delegates. Cochrane carried the Second, Third and Fourth wards, and Fisher the First and Fifth wards. The vote was close in the First and Fourth ward. In the First ward 174 votes were cast, Fisher having six majority. In the Fourth ward 135 were cast, Cochrane having a majority of five. The results were as follows:

First Ward.

The First ward caucus was held at the West Side engine house. S. B. Heddles was chairman, William Grove secretary and David Conger and E. J. Kent tellers. Whole number of votes cast, 174; of which the delegates for I. U. Fisher received 90 votes and the Wallace Cochrane delegation received 84 votes. Delegates to the county convention are: H. L. McNamara, J. F. Spoon, Charles Eller, Fred Rice, W. T. Dooley, William H. Merritt, A. M. Fisher, E. W. Lowell, J. H. Watson, W. L. Taylor.

Second Ward

The Second ward caucus was held at the East Side engine house. Fred H. Koebelin was chairman Fred L. Clemons secretary, A. C. Jenkins and O. D. Rowe tellers. The following are delegates to the county convention; O. F. Nowlan, Homer Paul, Sumner Proper, Arthur C. Jenkins, J. C. Stanton and Henry Rogers.

Third Ward

The Third ward caucus was held at the Conrad building on Court street. J. L. Bear was chairman, W. J. McIntyre, secretary and C. D. Child and Geo. J. Davis tellers. Ninety-four votes were cast all for Wallace Cochrane. The delegates are: Geo. Hanthorn, C. D. Child, Floyd Hurd, W. J. McIntyre, Norman L. Carle, Ezra Dillenbeck, W. E. Clinton, F. S. Winslow, Dave Brown and B. F. Nowlan.

Fourth Ward

The Fourth ward caucus was held at the council chamber. F. I. Sanborn was chairman, Fred Sheldon secretary and Charles and Bert Palmer tellers. One hundred and thirty-five votes were cast, of which Wallace Cochrane received seventy and I. U. Fisher sixty-five. The delegates to the county convention are: Harry Carter, J. F. Pember, Charles Schwartz, A. H. Sheldon, Herman Lempke, Harry Gaulkey, Theodore Ott, W. G. Palmer.

Fifth Ward

The Fifth ward caucus was held at the Fifth ward polling booth. The chairman was J. G. Wray, secretary, E. W. Childs, and the tellers were Wilson Lane and Fred Jeffris. There were fifty-four votes cast, of which the Fisher delegates received thirty three votes and the Cochrane delegates nineteen. The delegates are J. G. Wray, E. W. Childs J. A. Sutherland, Fred Jeffris.

BAILEY HOME STRUCK BY LIGHTNING BOLT

CONSIDERABLE DAMAGE BY THE ELEMENTS LAST NIGHT.

Lightning Struck the Brick Chimney and Exploded Like a Dynamite Bomb Scattering the Debris in All Directions—Alfred Slater's Barn Was Also Damaged.

Lightning did considerable damage last night. At the home of F. J. Bailey at No. 14 Clark street, the family was awakened by a crash as if some one had fired an immense cannon in the house, and for a few moments hardly knew what to expect.

Upon investigation it was found that the lightning had struck the large brick chimney and exploded like a dynamite bomb, throwing the bricks anywhere from fifty to seventy-five feet and scattering them all over the yard. The shock was so strong that none of the bricks dislodged landed on the roof, but cleared it and landed in the yard.

This chimney connects with two grates at the bottom, and the ashes, papers, and debris left in the grates, were blown all over the rooms.

Mr. Bailey said a few dollars would repair all the damage he had sustained, but that he did not care to go through another such a scare.

At Alfred Slater's house lightning struck a small barn or chicken coup in the rear of his home, tearing off most of the shingles from the roof and making a hole through the roof that a man could drop through. It passed down into the barn and ripped one of the large roof supports into slivers and then passed off into the ground without further damage.

Mr. Slater said he noticed one particularly sharp shock in the night, but did not think it struck so close until a neighbor informed him this morning.

Wallace Circus Is Second to None.

The Commercial Travelers' Club of Indianapolis, published the following statement in reference to the Great Wallace Shows which exhibited in Indianapolis:

"A large number of the members of this club have seen the performances given by the Wallace show, and the public has the assurance of reputable citizens that the performance given by the Wallace Show is second to none, and the performances are of the highest class known to the profession."

It is the universal verdict that the Great Wallace Show ranks second to none. This up-to-date aggregation which offers many new features will exhibit in Janesville on Friday, August 3.

GALA WEEK IN RACINE

Carnival Opens With the Oriental Parade—Floral Procession on Wednesday the Leading Feature.

Racine, Wis., July 24—The street carnival opened today and the business portion of the city is in gala attire. The colors are gold and purple with the American flag thrown in. It promises to be the greatest week the Belle City has ever experienced, so far as gayety is concerned.

An attractive program is made up for every day and night, but the floral parade tomorrow will be the main attraction. It is estimated that 105 equipages of various kinds will be in line and the entire fire department will also parade. Mayor Higgins is to lead the line and it is expected that Senators J. V. Quarles, John C. Spooner and ex-Governor Peck will be present.

Another feature will be the parade of the fraternal organizations. This will take place Thursday evening with illuminations. Carnival day and ragamuffin parade Saturday is bound to attract great attention. Hundreds of people arrived from the interior today, and witnessed the parade of the Oriental Carnival company. At the Athletic association grounds the Midway parade is considered the leading attraction.

"Dead Man" Holds Rope.

In order to support the guy rope for a derrick when no convenient tree or other thing to which it can be attached exists, it is the habit among railroad men to bury a sleeper in the ground, to which the rope is attached. This sleeper has been called from time immemorial in railroad slang a "dead man."

Oldest Grocer in Country.

William G. Nash of Weymouth, Mass., is thought to be the oldest grocer in the United States, he having entered the business as an employe in 1831, and having conducted a store of his own for the last sixty-seven years.

OSTEOPATHY

Is a comparatively new science, and consists in the treatment of diseased conditions of the body without the use of drugs.

The principle and theory of Osteopathy is very easy to understand when once a satisfactory opportunity is given to be explained.

Osteopathy is applicable to the treatment of all diseases. Indigestion, Torpid Liver, Dyspepsia, Constipation. There are no more common ailments than these, and none respond more readily to Osteopathic treatment. Neuralgia is often relieved almost instantaneously and sufferers from Rheumatism may find relief when all other methods have failed.

NEGRO PRISONER LYNCHED.

Alabama Mob Smokes Sheriff Out of the Jail.

USE DYNAMITE ON PRISON.

A Negro Accused of An Assault Upon a Little Girl Is Identified by Her as the Culprit, and the Mob Then Wreaks Summary Vengeance Upon Him.

Huntsville, Ala., July 24.—At the hands of a quiet and orderly but determined mob of 1,000 men, Elijah Clark, a negro, 20 years old, paid the extreme penalty of a criminal assault upon a white girl, Susie Priest, 13 years old. The negro was taken out of jail after the sheriff had been overcome by smoke and an attempt to blow up the jail with dynamite, carried to the girl and identified, and then taken to Moore Grove, near Dallas, and swung to a limb, his body being riddled with bullets and shot. The body is swinging to a limb in a deserted grove, left as a warning to other negroes who may have an idea of committing this crime. Clark was guilty of one of the most dastardly cases of assault ever committed in North Alabama. He caught Susie Priest and her sister, Nellie, out in a lonely field and grabbed the former by the throat, threatening to cut her head off if she made resistance. Nellie Priest escaped and gave the alarm at Dallas. Within a few minutes the entire male population was in pursuit of the negro who fled into the mountains. The search was continued all night.

Capture Him in Bed.

Deputies were also after him, and he was captured by Deputies Phillips and Jamar at the home of relatives, near Meridianville, eight miles from the scene of the crime. Clark was in bed with two cousins, and they made an attempt to conceal him. He was hustled out and brought to the city at an early hour this morning. Clark confessed to the deputies that he was the negro who assaulted the girl, and said that, knowing that she was a poor factory girl, he thought nothing would be done with him. When the news spread over the town that the negro was in jail, the male population of Dallas suspended work, causing the Dallas mill to shut down, came to town, and surrounded the jail. The men brought rifles, shotguns, and pistols with them, and were ready for any kind of trouble. Sheriff Fulgham was requested to hand over the keys. He refused, saying that the mob would have to kill him to get them. A strong guard was placed at the jail, armed with Winchester shotguns. The mob then began to make preparations to break into the jail.

The front door was burst open and a rush made for the line of deputies in the hall. The deputies opened fire and one man, Will Vining, an electric light trimmer, was shot in the shoulder. This checked the mob for a while, and the leaders decided to go about accomplishing their object in some other way. Several pounds of dynamite were secured and placed against the walls of the jail. The sheriff was again asked to surrender the keys or have the jail blown up, but he refused again. Prominent citizens, among them Capt. Wilton Humes, Capt. Daniel Coleman, John H. Wallace, and others made speeches in an endeavor to pacify the mob, but they were hooted down.

Mob Uses Dynamite.

Shortly after noon a large stick of dynamite was thrown up the main stairway of the jail. The explosion damaged the stairs and broke every window in the front part of the building. The sheriff was warned to come out with his deputies and prisoners, but he again firmly refused. The mob then made plans to smoke the officers out of the jail. A barrel of oil, a large amount of tar, and several bushels of feathers were placed on the cement ground floor of the jail and set afire. A suffocating smoke arose, and the sheriff was compelled to take refuge in the third story of the jail, the deputies and guards seeking the remote corners. The negro was forcibly taken from the jail to the home of Susie Priest, who identified him.

He was then taken to the woods mounted on a horse and asked if he had anything to say. He replied that he had not, and the horse was led from under him.

In ten minutes the negro was dead, and then his body was filled with bullets from half a hundred guns. No member of the mob made any attempt to conceal his identity.

MARCH SEVENTY MILES.

Captain Tripp Tests the Endurance of Troop G, First Cavalry.

Canton, Ill., July 24.—Troop G, First cavalry, I. N. G., commanded by Capt. S. O. Tripp, made a practice march across country from Peoria Saturday night, a distance of thirty-five miles, and were yesterday guests of Squadron Adjutant B. M. Chipperfield. The troop made the return march last evening. Three thousand people witnessed the exhibition drill. It is the longest practice march undertaken by the state cavalry. Men and horses are in the best of condition, and go into camp at Springfield next Saturday.

CIGARETTE CAUSES EXPLOSION

It Is Thrown Into Naphtha, and Two Persons Are Instantly Killed.

New Rochelle, N. Y., July 24.—By a terrific explosion of naphtha, which occurred in the 30-foot launch Sasco in Echo bay, Alfred Eugene Crow, a wealthy resident of this city and a retired capitalist, was fatally injured and his wife and 16-year-old son were instantly killed. The boat was blown to atoms, not a stick over twenty feet long being found. Crow and his family were coming down the sound, having been out witnessing the yacht races off Larchmont. The explosion made a loud report. As quickly as possible yachtsmen started for the scene. The first boat to reach the place was the Crony, a yacht owned by Henry B. Welsh. Welsh and Frank Hansmon, his captain, reached Crow, who, almost exhausted from injuries, was clinging to a cushion. They pulled Crow out, and in a gasping breath he said: "My wife and son! My God! where are they? Can you save them? God help them!" Crow then sank into unconsciousness. The bodies of Mrs. Crow and her son, both badly mangled, were found floating near the scene of the wreck. Crow was terribly burned, and cannot live, the surgeons think. It is thought that the accident was caused by a leak in the naphtha pipes, and that Crow, who was a cigarette smoker, threw a cigarette into the naphtha, not knowing that a leak had occurred.

CLINGS TO AN EXPRESS TRAIN.

Preacher's Wild Ride on the Steps of a Vestibuled Car.

New York, July 24.—The Rev. J. B. Gallaway, of Paterson, N. J., was rescued after a wild ride of seven miles clinging by his finger tips to the closed door of a vestibuled car on the Chicago express of the Erie railroad. Mr. Gallaway delayed going into the car at Paterson until the train was in full motion, when he swung on to the rear end of the last car. The vestibule door was closed, leaving him clinging to the rail and the ledge of the door, while his toes rested on about two inches of the step that protruded. Thinking that the porter would see him and open the door the pastor held on until the train was under such headway that he feared to let go. When the train reached Ferndale, seven miles away, the pastor, with his strength almost spent, dropped from the step as the cars came to a halt. The distance had been made in less than eight minutes, and Mr. Gallaway's face was cut by flying cinders, while his fingers were torn by the terrible strain put upon them.

Peary's Relief Delayed.

St. John's, N. F., July 24.—The Peary relief steamer Windward entered the harbor at Port au Basques, at the southwest extremity of the island, with part of her machinery disabled. Pieces to replace the broken sections reached here by train. It will probably require a few days to make the necessary repairs. The delay may seriously disarrange the ship's plans for reaching the far north.

Farmers to Fight Ice Trust.

Kenosha, Wis., July 24.—A movement has been started among the farmers of this county looking to the imediate organization of an ice company to compete with the ice trust in this locality. While the Knickerbocker Ice company has large interests in this county, by far the gfireater portion of the shore line of the ice-producing lakes belongs to the farmers who are back of the present movement.

RAID THE BRITISH LINES.

Boers Capture a Supply Train and 100 Highlanders.

THEY CUT OFF PRETORIA.

Railway and Telegraph Communication Is Interrupted—De Wet and Steyn Give Broadwood's Forces a Sharp Engagement at Palmietfontein on July 10.

London, July 24.—Gen. Dewet has again succeeded in cutting Lord Roberts' communications, both by railway and telegraph, and has captured 100 of the highlanders. The story of the federal commander's bold raid comes in the form of a telegram from Gen. Forestiner-Walker dated at Cape Town, Sunday, July 2, forwarding a dispatch from Gen. Knox, as follows:

"Kroonstad, July 22.—The following from Broadwood, sent by dispatch rider to Honingspruit, wired thence to Kroonstad: 'Have followed commando since July 16. Hard, sharp fighting at Palmietfontein July 19. Prevented from pursuing laager by darkness. Eight hundred boers found. Our casualties five killed and seventy-six wounded. Reach Vaalkrantz today. Enemy doubled its way back through Paarde Kraal in the darkness. Shall march tomorrow to Roodevaal station. Send supplies for 3,000 men and horses, also any news of the enemy's movements. I believe the commando consists of 2,000 men and four guns and is accompanied by President Steyn and both the Dewets.'"

General Knox continued: "The wire and main line of the railway north of Honingspruit have been cut and also the telegraph to Pretoria via Potchefstrom. According to my information Dewet has crossed the railway and is going north." Gen. Kelly-Kenny telegraphs from Bloemfontein, under date of Sunday, July 22: "The railway has been cut north of Honingspruit and a supply train and 100 highlanders captured by the enemy. A report was received this morning that a large force of the enemy is moving on Honingspruit. All communication with Pretoria is cut off. The 2d and 3d cavalry brigades are following the enemy."

Pretoria, July 24.—General Pole-Carew made a reconnoissance east of Donkerhoek. The Boers shelled Col. Henry's mounted infantry, but did no damage. The British guns replied. General Hamilton, on the left, made a similar movement. The enemy was cleared out beyond Bronkhorst Spruit. A young Boer law student, who was at Grey's Inn, London, until Jan. 20, came to the British outposts, bringing a letter for the foreign consuls. He declared that the Boers were determined to continue the war to the utmost limits.

The total number of Transvaal burghers now in the field is believed to be 18,000 net. General Dewet, after burning a train, camped four miles from the railway. A number of persons sympathizing with the Johonnesburg conspirators sang a Volkslied when the prisoners passed through the streets to the station. They were summarily arrested and bundled into a train and sent south. Boers are reported to be concentrating in the Rustenburg district and on the bush veldt north of here. Natives report that a large amount of money is still buried in Wolmaren's garden. They are busily digging for it in hope of a reward.

LIGHTNING RAN AMUCK.

Played Tenpins with Chimney and Blackened Baby's Body.

Bradley Beach, N. J., July 24.—A peculiar freak of lightning occurred in a thunderstorm here which has excited the entire community. The bolt struck the house of James Bradner, knocking down the bricks in the chimney like tenpins. It followed the flue into the furnace, tearing it all to pieces. The lightning then made a circuitous course, retracing part of its path, and went out of a bedroom window on the first floor. In the room a little baby boy of Mr. Bradner's was sleeping. He was hurriedly picked up and his entire body was found to be black as coal. The babe was practically unhurt.

Yellow Fever in Barracks.

Havana, July 24.—Yellow fever has broken out in the barracks of the Seventh United States Cavalry and the First United States Infantry in Pinar del Rio. There have been nine deaths during the present month and eleven cases are now under treatment in the hospitals. General Lee ordered the camp moved three miles into the country and quarantine will be strictly enforced.

Woman Dies of Fright.

Philadelphia, Pa., July 24.—Frightened into hysterics by the sight of the body of her neighbor and friend, Mrs. Goldberg, Mrs. Sarah Tillies, 25 years old, of No. 456 North Second street, died. Dr. Marks said her death was caused by fright, the result of seeing the body of her friend.

NEW RELIGIOUS MOVE.

A School of Life to Be Founded In Chicago.

BROAD SCHEME OF DR. W. H. THOMAS

Well Known Pastor Organizing Religious and Educational Movement to Combine School and Newspaper. Universal People's Church to Be Conducted on Practical Lines.

Plans are being made to broaden the scope and work of the People's church in Chicago, of which Dr. W. H. Thomas is pastor, along three novel lines within the next year. Before the expiration of that time the members of the church hope to own their own building in the heart of the business district. This fall a "School of Life" will be founded, and a weekly paper devoted to the work of the church will be started, says the Chicago Times-Herald. The paper will be called The People's Pulpit and will carry Dr. Thomas' weekly sermon to all parts of the country where People's churches are being founded.

A gift of $50,000 already has been promised to the officers of the church by a wealthy woman, a member of the congregation, who does not wish her name made public in connection with the gift. Dr. Thomas has received intimations from all sides that the people are willing and anxious to enlarge the field of usefulness of the church, and it is confidently expected that by next summer $500,000 will have been raised for the purpose.

The new building will be a novelty among church edifices. Unlike the usual structure of the conventional church design, it will be a business block in the heart of the commercial center of the city. It will contain an immense auditorium, where services will be held as in other churches, and the rest of the building will be devoted to offices. All the offices will be occupied by the executive boards and clerical forces of the various undertakings of the church.

The school which is to be a part of the church will undertake to teach young men and women along untried lines. Its promoters choose to call it a "School of Life," and life is what they hope to teach. They will try to prepare young men and women for the duties of a Christian life, and the work will be done mainly through a system of course lectures. The lectures will be on sociological and economic problems and in the main will be free.

One of the main objects of the school will be to prepare men and women for missionary work in People's churches throughout the country. Churches of this kind are springing up everywhere, and ministers in these churches must have a training quite different from that given in the various denominational institutions. Graduates from this school will be sent to open new fields and to assist newly organized churches in the western cities.

A practical law course also will be offered pupils of the school. It is not intended to make lawyers of the young men and women, but they will be given an opportunity to learn common law to aid them in whatever walk of life they may enter. A number of well known pedagogues have already offered their services as instructors in the new school. Until the new church is built temporary quarters will be found for the school in some down town building and classes will be organized early in September.

The People's Pulpit is to be an eight page weekly and will be very different from the religious weekly as we know it. Aside from Dr. Thomas' sermons it will contain literary matter and a page for the help of the People's church in other cities. Dr. Thomas is constantly receiving requests for his sermons from founders of churches similar to his, and it is thought this will be the best way to supply them.

"The needs of the world are changing," said Mrs. Vandelia Varum Thomas the other day, "and the old methods of religious work are not adapted to the life of today. The work of the church of today is not so much a matter of giving away old clothes—it is a much larger and broader work. I do not mean to say that the giving away of old clothes is not necessary and very commendable, but larger opportunities present themselves.

"In spite of the fact that this is a commercial age, there is a growing spirit of humanity in the world which gives promise of great things. People today are constantly saying, 'What can I do to help my neighbor?' and everywhere there is a willingness and desire to do good. We feel that the time is ripe for enlarging the field of the People's church, and we think the movement will meet with great success. The foundation of the universal People's church in every city throughout the land has been Dr. Thomas' dream for years, and it seems that it is now about to be realized."

New College For Manila.

The Manila Freedom of a recent date says that Florentino Torres, with a delegation of four directors of the new Filipino college, called at the office of the military governor and afterward visited the provost marshal general for the purpose of presenting an outline of the educational project and securing the permission of the authorities to carry it out. The projectors received a favorable reception, and the project will be carried out. A staff of American teachers in engineering, medicine, pharmacy, law and arts will be secured as soon as feasible, and in time it is expected that the college will have greater powers and will be in a position to complete a course in any of the different branches.

REVENUE AND SURPLUS.

Comparisons Which Appeal to Common Sense and Judgment.

After three years of experience under the Dingley tariff law it is worth while to observe how absolutely the results have fulfilled the expectations of the statesmen who framed that measure, says the New York Mail and Express. No tariff act was ever more bitterly opposed by the free traders than that which passed congress July 24, 1897; none ever so speedily confounded its enemies, nor has any ever so happily surprised its supporters. The effects of its operation can be most clearly shown by a few comparisons between present conditions and those which prevailed four years ago.

On May 31, 1896, for example, the available cash in the treasury amounted to $267,193,211, but a large proportion of this was obtained by the Cleveland policy of selling bonds in time of peace. The balance steadily declined, however, and at the outbreak of the Spanish war in 1898 it had fallen to $215,810,622. Since then we have passed through a war involving the expenditure of $338,000,000, yet the cash in the treasury on May 31 of this year amounted to $299,655,535, with the moral certainty of a still further increase. In May, 1896, the government receipts amounted to $24,643,717 and the expenditures to $28,426,592, but in May, 1900, the receipts were $45,166,653, and the expenditures were $40,330,000, showing a surplus for May this year of $4,836,653 as against a deficit of $3,782,875 for the corresponding month four years ago. Or, to draw the contrast on broader lines, there was a surplus of $63,356,142 for the 11 months ending May 31, 1900, as against a deficit of $27,552,676 for the 11 months ending May 31, 1896.

These striking results are due almost wholly to the Dingley tariff. For May, 1896, the customs receipts amounted to $10,949,793, while for May, 1900, they rose to $17,396,573 and that, too, in spite of the fact that our imports last month were 30 per cent less than in the corresponding month four years ago. The free trade contention that the enactment of the Dingley law would ruin our export trade is best answered by the fact that our exports, which amounted to $807,538,165 under the Wilson-Gorman tariff in 1895, rose to $1,227,023,302 under the Dingley measure in 1899. The balance of trade in our favor in 1896 was $102,822,264. For the year ending April, 1900, it was $518,812,983. These comparisons make their own appeal to American common sense and business judgment.

A TAX THAT IS POPULAR.

One That Is Paid by the Other Fellow and Brings Prosperity.

"A poll tax is never popular," says the New Haven Palladium. "What kind of tax is popular?" asks the New York Sun. "An indirect tax that the other fellow pays or that is paid without knowledge of the payment," replies the Philadelphia Record.

A very good answer and one that shows why the protective tariff taxes are so popular. Consumers don't know when they pay them and are not burdened by them. The reason is that they build up home industries, raise American wages, make our money circulate at home instead of abroad and increase the worker's surplus of income over outgo. The protective tariff is a home builder, a creator of prosperity and a promotor of content. Hence it is popular, and the people are not going to vote it away this year.—Rochester Democrat-Chronicle.

Republican Strength.

The platform of the Republican party this year is as strong as was the demand of the people for the unanimous nomination of McKinley and Roosevelt. Of the president it said: "Walking untried paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring and deserving the confidence of his countrymen." In asking the people to indorse the Republican party for its record of business prosperity, stable currency and patriotic Americanism it should be remembered that the threat to prosperity has always existed in the ranks of the Democratic party as well as in its incapacity to properly manage our public affairs. The strength of the Republican platform, the strength of the two candidates that represent it and the unanimity with which both were indorsed by the Republican party at Philadelphia will insure a more sweeping victory than was given for McKinley and prosperity in 1896.

Change Sorely Needed.

A statement made and still unchallenged at the Republican national convention in Philadelphia that $4,000,000,000 has been paid by Americans to foreign shipowners during the past 35 years and that during the next 25 years $5,000,000,000 more will be paid if there is no change in our shipping laws fully justified the platform demand for remedial legislation.

A Word About Wheat.

The farm price of wheat on Dec. 1 in each year of President Cleveland's administration averaged 54.1 cents per bushel. Under the McKinley administration the average price has been 67.5 cents per bushel, an increase of 25 per cent over the Democratic price.

Times Have Changed.

A Missouri farmer lost a $500 diamond ring the other day while engaged in feeding his chickens. During the last Democratic administration the farmers had no diamonds to lose and precious little feeding to do.

PROVE ALL THINGS.

This Command is Easy to Fulfill in Janesville.

To win a wager an English Marquis stood on London bridge and offered for an hour British sovereigns ($5) for five shillings ($1.25). He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Janesville people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mr. Thos. Pratt of 281 South Main St says; "I doctored off and on for forty years, attempting to rid myself of backaches, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching was sure to manifest itself if I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the People's Drug Co.'s store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Let stand three minutes or until the skins can be pulled off without the assistance of a knife. Plunge into cold water, and after a few minutes drain and stand on the ice two hours before using. When ready to use them, cut into half inch slices and serve on cracked ice. They may be served plain or with mayonnaise.

Exercise and Health.

Exercise is a splendid thing for a healthy person. But when the body is weakened by disease, exercise strains rather than strengthens. Exercise will not cure a "weak" stomach. It may increase the appetite, but it won't cure dyspepsia, and an increased appetite is a curse not a blessing to the sufferer from dyspepsia.

Take exercise by all means but also take Dr. Pierce's Golden Medical Discovery if there is a deranged or diseased condition of the stomach and other organs of digestion and nutrition. This medicine is not a cure-all but a specific for diseases of the stomach and digestive and nutritive system. It strengthens the stomach, purifies the blood, and increases physical vigor.

There is no alcohol contained in "Golden Medical Discovery" and it is absolutely free from opium, cocaine and every other narcotic. It is strictly a temperance medicine.

"I wish to say that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon, of Shutesbury, Franklin County, Mass. "Prior to September, 1897, I had doctored for my stomach trouble for several years, going through a course of treatment without any real benefit. In September, 1896, I had very sick spells and grew worse; could eat but little. I commenced in September, 1897, to take Dr. Pierce's medicine, and in a short time I could eat and work. I have gained twenty pounds in two months."

Dr. Pierce's Pleasant Pellets are a cure for constipation.

Gentlemen:—I must say in regard to GRAIN-O that there is nothing better or healthier. We have used it for years. My brother was a great coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to use GRAIN-O. We got a package but did not like it at first, but now would not be without it. My brother has been well ever since we started to use it. Yours truly,

PHOTOGRAPHERS IN MILWAUKEE TODAY

Milwaukee, July 24 - Photographers from all parts of the country are gathing for their national convention which begins in Milwaukee today. President S. L. Stien of this city estimated the number of visitors here last night at 700, and the total attendance for the convention at 2,000. The sessions will be held at the exposition building, and there the delegates and their friends will be welcomed this morning. An interesting programme will be followed today, and this evening a theater party at the Davidson will be given, for which the entire house has practically been taken.

Features of the convention are the exhibition of photographs in the Exposition Art gallery, and the display of photographers' supplies on the main floor of the building, both being of an excellent character.

The Exposition Art gallery contains the finest display of American photography ever made in Milwaukee. The purpose of the exhibition is to show only such pictures produced by photography as may give distinct evidence of individual artistic feeling and execution.

Mrs. Siddons' Stage Fall.

The late Charles Cowden Clarke used to relate a curious anecdote of Mrs. Siddons as Lady Constance in "King John." When a very young man, he was privileged to witness the last performance of the great actress in this, one of her favorite roles. She had retired for some years from the stage and had in the meantime grown stout and unwieldy, so that when, in obedience to stage directions, in the second act she cast herself upon the stage it was found she could not rise unassisted, whereupon two tall Covent Garden flunkies with powdered hair and plush breeches stepped upon the stage and helped her to her feet. But so impressive and sincere had been her acting that the incident passed off without producing even a titter in the absorbed audience.

The Old Elm.

This was a venerable landmark of nature that stood on the Boston common until Feb. 15, 1876, when it was blown down by a furious wind storm. It is believed to have antedated the settlement of the town, and is claimed to have been the oldest tree in New England. It had a place upon a map engraved in 1722, and the age of it was estimated by the rings of a branch broken off in 1860, which indicated an existence since 1670.

Dire Poverty in Italy.

The poverty among the peasants in some parts of Italy is so great that they go miles to get a bucket of seawater to save the cost of salt for cooking.

Broken Lot Sale.

It has been our custom, after the Fourth of July, to go with a determination to clean up all remaining summer styles. We found it the most paying, rather than have accumulations to carry over. We have arranged in different lots, in both men's and women's, regardless of make, a goodly variety of the best styles to be found anywhere. Cost is all we ask for some; others 'way below. These are mostly tans—just what the season calls for.
